

Autumn Wider curriculum Homework

Welcome to year 5 .I have created some homework ideas, designed to engage the children further in their wider curriculum learning.

I would also like them to take you on this journey with them. However, please do not fear or stress over the homework. I will do my best to provide extra resources if needed but these activities are designed for fun.

Each child must complete at least 3 of the homework's this half term. The sooner they are done, the nicer the class display will look. However there is no formal deadline.

If your child would like to do more than three the sky is the limit.

I am looking for high quality year 5 pieces of work that we would be proud to display.

★ Space Fact File (English/Computing)

Research a planet of your choice and create a fact file using a poster, booklet or presentation

🚀 Design a Spacecraft (DT)

Design a spacecraft that could travel to another planet. Label its features and explain how it would keep astronauts safe.

📏 Scale Solar System (Maths)

Create a model of the Solar System using different-sized objects. Challenge: work out the scale distances between planets.

📖 Space Story (English)

Write a short adventure story about a child visiting another planet.

🎨 Galaxy Art (Art)

Create a painting, collage or digital picture of a galaxy or space scene.

🎵 Planet Song or Rap (Music)

Write and perform a song or rap that helps people remember facts about the planets.

★ Constellation Hunt

(Science/Art) Research a constellation and create it using dots, string, lights or craft materials.

👤 Significant Space Explorer (History)

Research an important figure such as Tim Peake, Mae Jemison or Neil Armstrong and present your findings creatively.
